

# 3M™ PAINT PROTECTION FILM

## DESCRIPTION:

Tough urethane films protect vulnerable automotive paint surfaces from stone impacts and chipping.

## VALUE OPPORTUNITY

- 3M Paint Protection Films protect automotive paint and other vulnerable surfaces from stone chips, scratches, bug damage, road tar stains, automotive fluid stains and punishing outdoor weathering - including harsh ultraviolet (UV) radiation.
- Protecting the paint improves resale value of the vehicle.

## TECHNICAL BENEFITS

- Urethane base film absorbs stone impacts and resists tearing.
- Protective clear coat resists staining from road tar and debris, as well as weathering from sunlight and harsh exposure conditions.
- Durable acrylic pressure-sensitive adhesive provides secure adhesion to exterior automotive paint surfaces.

## ADDITIONAL INFORMATION

All statements and technical information contained in this document are based upon tests or experience that 3M believes are reliable. User is responsible for evaluating and determining whether the 3M product is suitable and appropriate for a particular use and intended application. Except as may be stated on the 3M product packaging, 3M makes no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose or implied warranty arising out of a course of dealing, custom or usage of trade. Except where prohibited by law, 3M will not be liable for any loss or damage arising from this 3M product, whether direct, indirect, special, incidental or consequential.
