

# 3M™ ACRYLIC FOAM TAPES

## DESCRIPTION:

Utilizing advanced technology, 3M Acrylic Foam and Acrylic *Plus* Attachment Tapes are designed to adhere to a wide variety of paint systems, including low surface energy and improved scratch- and mar-resistant paints. They exhibit unique core properties that allow for stress relaxation and exhibit high adhesion values to automotive paint systems.

### VALUE OPPORTUNITY

- A broad product line of 3M Acrylic Foam and Acrylic *Plus* Tapes allows our customers to customize vehicles without sheet metal changes.
- 3M offers a wide variety of products to account for various processing conditions at our customers.

### TECHNICAL BENEFITS

- Tapes exhibit excellent adhesion to traditional, low surface energy, and scratch- and mar-resistant automotive paint systems.
- Unique foam core provides stress relaxation.

### ADDITIONAL INFORMATION

All statements and technical information contained in this document are based upon tests or experience that 3M believes are reliable. User is responsible for evaluating and determining whether the 3M product is suitable and appropriate for a particular use and intended application. Except as may be stated on the 3M product packaging, 3M makes no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose or implied warranty arising out of a course of dealing, custom or usage of trade. Except where prohibited by law, 3M will not be liable for any loss or damage arising from this 3M product, whether direct, indirect, special, incidental or consequential.
