

# 3M™ TRANSMISSIVE FILM

## DESCRIPTION:

This unique film allows designers to hide displays and lighting effects without compromising visual clarity when illuminated.

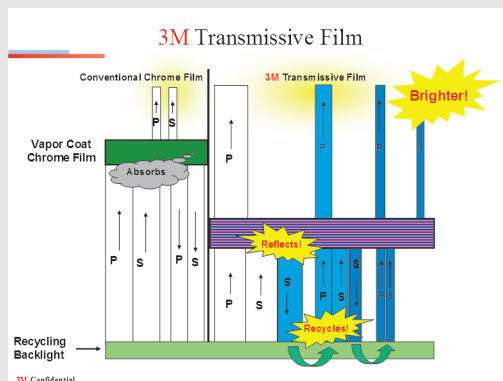

## VALUE OPPORTUNITY

- Improved craftsmanship.
- Creates high-clarity TFT screens when illuminated.
- Improves human machine interface (HMI) through simplified appearance.
- Eliminates the need for screen bezels.
- Improves security via “dead front” appearance.

## TECHNICAL BENEFITS

- Highly reflective and transmissive film at the same time
- Ability to customize colors
- Suitable for multiple substrates
- Thermoformable

## ADDITIONAL INFORMATION

This 3M product is developmental and available for evaluation purposes only. This product has been commercialized for general sale, and its formulation, performance characteristics and other properties, and availability are not guaranteed and are subject to change without notice. User is responsible for evaluating and determining whether the 3M product is suitable and appropriate for a particular use and intended application. Except where prohibited by law, 3M will be not liable for any loss or damage arising from this 3M product, whether direct, indirect, special, incidental or consequential.
